FEED FOR

Easy transition from sow's milk to feed; increased palatability

For pigs up to 15 lb.

Similar protein structure to 219, easy transition away from milk; budget 2-3 bags per litter

Unmatched intake and bloom; Optimal sale prep to get pigs picture-pen ready

Packs a punch - Animal protein sources for superior muscle growth; pairs perfectly with 14P to make the ideal diet for each individual

Supports pig health during transition from breeder to exhibitor (weaning to finishing)

A mellow feeding formula for extreme muscled hogs or those that needs to be slowed down; unique fiber blend to create fill; pairs perfectly with 19P

Proprietary feed additives to support respiratory health and intake during stress

For a custom mix using local ingredients, check out HS Showpig Mixer & HS Showpig Base
