

PROOF PAYS: COW/CALF

Feeding Demonstrations

IT PAYS TO TEST YOUR COW/CALF FEEDING PROGRAM

Your herd's success starts with good nutrition for pregnant cows. Is your feeding program supporting consistent body condition scores, healthy calving and vigorous calves?

See results below from producers across the U.S. who ran Proof Pays Feeding Demonstrations with their cow/calf herds.

	ACCURATION® RANGE SUPPLEMENTS (blocks and meal)	ACCURATION® RANGE LIQUID		WIND AND RAIN® STORM®
NUMBER OF FEED DEMONSTRATIONS:	24	18	NUMBER OF FEED DEMONSTRATIONS	34
NUMBER OF HEAD:	2,210	1,439	NUMBER OF HEAD:	3,463
AVERAGE BCS START:	5.23	5.23	MINERAL INTAKE (GRANULAR)	4.47 oz.
AVERAGE BCS END:	5.70	5.23	MINERAL INTAKE (TUBS)	6.44 oz

ACCURATION® RANGE SUPPLEMENTS (blocks and meal)

A supplement with Intake Modifying Technology® to balance nutrient deficiency in fair or poor quality forages.

ACCURATION® RANGE LIQUID

A liquid protein and energy supplement with Intake Modifying Technology® for free-choice feeding to pasture cattle.

WIND AND RAIN® STORM® MINERALS

This comprehensive line of mineral supplements is formulated to resist absorbing water or being blown from a feeder. The highly-palatable formula provides 14 essential minerals to address deficiency in available forage for optimum health, growth and reproduction. The product is available in granular or tub form.
