

RANGELAND® 30-13 TUB

Specie: Beef

Type of Feed: Supplement

Form of Feed: Tub

General Description:

RangeLand® Protein Tubs are a free choice supplement designed for beef cattle on forage diets providing less than 8% protein. The low moisture, cooked molasses products in a non-returnable plastic container will enhance intake and utilization of available forages, while reducing labor for producers.

PURINA®
RANGELAND® 30-13 TUB

SUPPLEMENT FEED FOR CATTLE ON PASTURE

CAUTION: FEED AS DIRECTED
GUARANTEED ANALYSIS

Crude Protein, (Min).....	30.00 %
(This includes not more than 13.00% equivalent protein from non-protein nitrogen).	
Crude Fat, (Min).....	5.00 %
Crude Fiber, (Max).....	2.50 %
Ash, (Max).....	20.65 %
Calcium (Ca), (Min).....	2.00 %
Phosphorus (P), (Min).....	1.50 %
Magnesium (Mg), (Min)	1.00 %
Potassium (K), (Min).....	2.00 %
Manganese (Mn), ppm (Min)	450
Cobalt (Co), ppm (Min).....	10
Copper (Cu), ppm (Min)	300
Iodine (I), ppm (Min)	27.5
Selenium (Se), ppm (Min)	5
Zinc (Zn), ppm (Min).....	1000
Vitamin A, I.U./lb, (Min)	80000
Vitamin D, I.U./lb, (Min)	10000
Vitamin E, I.U./lb, (Min).....	50

INGREDIENTS

Note: ingredients differ by manufacturing plant

Molasses Products, Animal Protein Products, Processed Grain ByProducts, Urea, Dicalcium Phosphate, Monocalcium Phosphate, Animal Fat Preserved with Ethoxyquin, Magnesium Oxide, Calcium Carbonate, Vegetable Oil, Plant Protein Products, Zinc Sulfate, Manganese Sulfate, Sodium Selenite, Basic Copper Chloride, Ethylenediamine Dihydroiodide, Vitamin A Supplement, Vitamin E Supplement, Vitamin D3 Supplement, Cobalt Carbonate.

FEEDING DIRECTIONS:

Feed one tub per 20-25 head of cattle and at least 2 tubs per pasture to ensure adequate intake by younger, timid animals. Place the tubs within 100 feet of where animals congregate (loafing, grazing, feeding and watering areas). Feed tubs continuously along with plentiful sources of forage and fresh, clean water. Cattle will consume approximately ½ to 1 pound of this supplement per head daily. If additional mineral and vitamin fortification is needed, provide a nutritionally balanced mineral/vitamin supplement containing salt.

This product does not contain added salt; therefore supplemental salt should be offered at all times.

CAUTION:

Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death.

Do not feed to sheep or allow sheep access to these products because of the high level of supplemental copper.

Available Options:

Product No.	Package	Size	Feeding Rate
1800049-627	Plastic Tub	125#	0.5 to 1.0 lbs./hd./d
1800048-633	Plastic Tub	225#	0.5 to 1.0 lbs./hd./d
1800052-622	Fiber Tub	250#	0.5 to 1.0 lbs./hd./d
1800052-922	Plastic Tub	250#	0.5 to 1.0 lbs./hd./d

Product Features:	Product Benefits:
Protein Supplementation	Balance forage quality and provide supplemental protein to better meet cow's nutritional need
Low Moisture Cooked Molasses Product Technology	Consistent intake and nutrient delivery that helps eliminate over-consumption
Enhanced Pasture Utilization	Placement of tubs can influence grazing patterns within a pasture Placement of tubs in underutilized areas of pasture can entice grazing in that area
Free-Choice Supplement Delivery System	Greatly reduce labor/time requirements when supplementing the beef herd Equipment savings, labor savings, low to no waste Convenient supplement delivery system optimal for beef producers experiencing time and labor shortages
Convenience and Safety	RangeLand® Protein Tubs conveniently come in their own mineral feeder, a non-returnable plastic tub Non-returnable tub means no risk from the spread of disease from one farm/ranch to another

IMPORTANT:

This product is to be fed only to the animal species as directed on this label. Follow these management practices:

1. Placement of tubs can influence grazing distribution in large pasture situations. Place tubs in areas of under-utilization in order to entice animals to specific locations within a pasture.
2. Do NOT provide starved animals free access to this supplement.
3. Consumption rate depends on location of the tubs with respect to loafing, grazing, feeding and/or watering areas. Also consider animal condition, forage quality and quantity, in addition to seasonal weather conditions.
4. If over-consumption occurs for more than two weeks despite tub repositioning, remove tubs and evaluate the overall feeding program.
5. This product does not contain added salt; therefore supplemental salt should be offered at all times.

USAGE TIPS:**INTRODUCTORY PERIOD:**

Initial placement of RangeLand® tub should be within 100 feet of the loafing and/or watering areas. As animals become accustomed to the presence of the tubs, some repositioning may be necessary to maintain proper consumption level.

Move the tubs closer to increase consumption, further away to decrease consumption. Total surface area exposed to the herd will impact consumption. Increased surface area exposed will increase consumption. Read and follow label directions.

KEY POINTS:

- RangeLand® 30-13 tub can be offered any time forage quality is in question, or when a forage supplementation is needed
- RangeLand® 30-13 tub provides supplemental protein, energy, vitamins, and trace minerals in an economical, free choice delivery system.
- RangeLand® 30-13 tub is ideal for feeding animals on dormant or other low quality forage (stock piled forage, crop residues, etc. that provide less than 8% protein).
- Ideal supplement for helping manage body condition through winter-feeding season.
- RangeLand® 30-13 tubs are not designed for playing nutrition catch up or when forage is in short supply.
