Available Options:

Product No.	Package	Size Diameter	Feeding Rate
3002094-106	Bag	Granules	4 oz./hd./day

Product Features:	Product Benefits:
Balanced mineral nutrition	Contains the proper balance and ratios of all 14 essential cattle minerals
	Matching the correct product for the cattleman's available forage assures cattle receive the mineral nutrition they need for health, growth and reproduction
Availa® 4 minerals	Meets 100% of zinc, copper, manganese and cobalt trace mineral requirements using Zinpro Availa® 4 complex trace minerals at a 2 ounce consumption rate
	Availa® 4 minerals aid the immune system of stressed cattle by rapidly replacing diminished trace mineral stores
Exclusive STORM® formulation	STORM® formulation nearly eliminates water retention and clumping or bricking; cattle will consume the mineral even after it's been wet
	Though it resists moisture, Purina research reveals that it does not prevent digestion, resulting in less waste
Large particle size ingredients and rain protection	Resistant to wind losses and rain damage

IMPORTANT:

This product is to be fed only to the animal species as directed on this label. Follow these management practices:

1. Cattle receiving phosphorus deficient diets may over-consume this product when it is first offered.
2. Place the mineral feeder near the water supply or in the animals' loafing area.
3. Put out fresh mineral at least once per week.
4. Feeding free choice salt is not required with this mineral.
5. Provide fresh, clean water near the feeding area.

KEY POINTS:

- Addresses mineral deficiencies of the available forage in a palatable, large particle size formula that keeps mineral from absorbing water and blowing out of the feeder
- STORM® formulation eliminated water retention and clumping or bricking of mineral, allowing cattle to consume the mineral even after it's been wet
