

DOES YOUR HORSE NEED A RATION BALANCER?

RATION BALANCERS ARE THE HIGH-NUTRITION, LOWER-CALORIE WAY TO KEEP YOUR HORSE'S DIET BALANCED.

WHAT TYPE OF FEED DOES YOUR HORSE NEED?

WHY A RATION BALANCER MIGHT BE THE RIGHT FIT FOR YOUR HORSE.

- Some horses can maintain their weight on hay or pasture with little to no "feed".
- Forages alone do not provide the needed balance or amount of all nutrients.
- This is also true for horses fed unfortified grains, which are variable in their nutrient content.
- Ration balancers are formulated to provide the nutrition your horse needs without excess calories.

WHICH IS RIGHT FOR YOUR HORSE?

	ENRICH PLUS®	ENRICH PLUS® SENIOR	OMEGA MATCH®
FORMULATED FOR:	EASY KEEPERS & PERFORMANCE HORSES YOUNG, GROWING HORSES STALLIONS & GESTATING MARES	AGING EASY KEEPERS PERFORMANCE HORSES OF ANY AGE	EASY KEEPERS & PERFORMANCE HORSES INGREDIENT SENSITIVITIES LIMITED ACCESS TO GREEN GRASS
Supplies protein vitamins & minerals	■	■	■
Low in calories & soluble carbohydrates	■	■	■
