High Octane® Power Fuel®			8 ounces	30	1 bucket	60
High Octane® Depth Charge®			4 ounces	5	< ½ bag	21

1. Dew orm lambs about every 30-45 days throughout the feeding period.
2. Feed lambs ¼ lb (double handful) of loose good quality alfalfa per day.
3. Always allow access to clean fresh water at all times.
4. When feeding HONOR® SHOW Show lamb feeds, there is no need to supplement with additional mineral.
5. Feed **High Octane® Heavy Weight® Supplement** at 2 oz to help improve feed intake, and 4 to 8 oz per day to help improve fat cover and/or growth rate.
6. Feed **High Octane® Ultra Full® Supplement** at 8 to 16 oz per day to help improve flank and lower 1/3 body fill.
7. Feed **High Octane® Fitter® 52 Supplement** at 8 oz per day for the final 14 days help optimize leanness and muscle.
8. To support digestive health and support feed intake feed **High Octane® Alleviate Supplement** at 1 oz per every 50 lb of body weight per day. If lamb is bloating, or off feed start at 6 to 8 oz per day and in 7 days reduce to 1 oz per day 50 lbs of body weight.
