FEED EFFICIENCY, DM BASIS	4.81	4.56	6.40	6.54

Maintaining excellent return on investment requires careful managing and planning. When is the last time you compared your program to another to be sure you are getting the best performance for your dollar? The Purina® All Seasons™ Cattle Nutrition Program supports maximizing the pounds of gain for finished cattle.

1. Feeding trials with calves of both sexes averaging from 503 lbs. to 761 lbs.*
2. Feeding trials with calves averaging from 441 lbs. to 691 lbs.
3. Feeding trials on steers with average weights starting at 677 lbs. and average finishing weights of 1,334 lbs.
4. Feeding trials on heifers with average starting weights of 764 lbs. and average finishing weights of 1,248 lbs.

*Weight ranges rounded from trial data averages for clarity of reporting
