Purina® Honor® Show Feed

Show Poultry Feeds

Our new line of HONOR® Show Poultry feeds have been formulated with the latest technology. Now with Amprolium (for prevention and control of coccidiosis) AND Flavomycin (for growth promotion), Ambitine® Feed Technology to support gut health, Alleviate® Feed Technology to maintain proper gastric pH in show stressed birds, plus a higher energy content to support growth and development. Purina® HONOR® Show's Poultry feeds can help you earn that banner.

FEED GREATNESS®

Show Poultry Feeds

Feeding Directions:

Blend the Honor® Show Poultry feeds in 20-lb batches according to the tables below.

Note: A 20-lb batch is not indicative of the amount of feed your birds will eat during that period. Birds may require more or less than 20 lbs of feed each week based on flock size and environmental conditions. Birds should never be without feed. When blended feed runs low, prepare a new batch of feed based on the age of the birds.
