

Purina® Multi-Species Milk Replacer

LEARN
MORE

Nutrition Formulated to Support Optimal Growth in Young Animal Species

Purina® Multi-Species Milk Replacer is a high-fat, high-protein milk replacer, formulated with the nutritional essentials to ensure young animals receive adequate nutrition, necessary for growth and development.

Balanced Nutrition

24% fat, 24% protein all-milk protein formula delivers energy and supports performance and growth.

Supports Immune Function

Vitamins B12, C and E help support immune health.

Supplemental Nutrition

Dry powder supplement feeding directions available.

Flexible Feeding Instructions

Designed to meet the needs of various young animal species including calves, foals, lambs and goat kids.

DIRECTIONS FOR USE

Detailed feeding and mixing instructions can be found on the back of the package. Also includes directions for use as a dry powder supplement. Intended for use in calves, foals, goat kids, lambs, piglets, fawns, elk calves, llama and alpaca cria from Day 2 to Weaning.
