

REPLENIMASH®

WHOLE SOME MASH

HYDRATION

RECOVERY

COMFORT

Supplement shown at smaller than actual size.
Natural variation may occur.

For Horses of All Ages and Activity Levels

There are times when our horses can use a little extra comfort with something to soothe their bellies, encourage hydration and replace lost electrolytes. As a tasty, research-proven alternative to traditional bran mashes, Replenimash® wholesome mash helps nourish your horse and their digestive system.

Encourages Hydration

With added electrolytes and increased water-holding capacity, when fed as directed

Wholesome Ingredients

A tasty mash with ingredients like beet pulp and carrots, balanced with vitamins & minerals

Supports Gut Health & Comfort

Specially designed to aid in healthy digestion through optimal Volatile Fatty Acid (VFA) production; also with OUTLAST® technology

Shiny Coat & Healthy Skin

With flaxseed and vitamin E

Promotes Recovery

Each serving replenishes the nutrients lost through 30 minutes of continuous sweating

DEVELOPED BY PhD EQUINE NUTRITIONISTS

OUTLAST®
GASTRIC SUPPORT
TECHNOLOGY

Exclusively from PURINA®

OUTLAST® gastric support technology is proven to act quickly. With a proprietary blend of calcium and magnesium sourced from seaweed, its unique structure enhances its capacity to support gastric comfort.

When to feed RepleniMash® Product

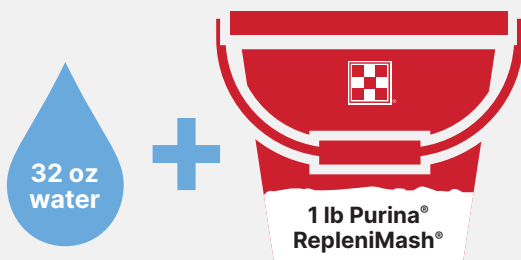

Feeding Directions

- Feed 1-2 lbs (0.1-0.2 lbs per 100 lbs body weight) per day for all life stages of horses, or as needed depending on desired level of support.
- This supplement is designed to be fed in addition to a concentrate feed or ration balancer to meet daily nutrient requirements.
- If feeding as the sole concentrate: use 0.3 lbs of Purina® RepleniMash® product per 100 lbs body weight per day, along with 1.2 lbs per 100 lbs body weight per day in hay or pasture.
- One pound of RepleniMash® product contains a full serving of OUTLAST® gastric support supplement.

Mixing Instructions

Mix 32 oz of water per pound of mash, or to your horse's liking, and serve after soaking.

1 lb of mash is equivalent to 3.5 dry 8-oz measuring cups.
