For Active Senior Horses

Purina[®] Ultium[®] Senior High-Fat, High-Fiber Horse Formula is a low starch and low sugar feed carefully designed for fueling the unique needs of senior equine athletes.

Fuels Performance

Powerful energy-dense formula with cool-burning energy from fats and fermentable fibers to help senior horses get the most out of their feed

Supports Healthy Aging

With patented ActivAge[®] prebiotic technology for mobility, metabolism & immune support, added antioxidants and added fat for a healthy-looking hair coat and skin

Supports Gastric Comfort

With a proprietary blend of calcium and magnesium sourced from seaweed in OUTLAST[®] gastric support technology

Taste Horses Enjoy

For proper nutrient intake

Highly Digestible

With added fiber from sources like beet pulp and alfalfa to support hindgut health

Low Starch & Sugar

Carefully designed formula appropriate for horses sensitive to soluble carbohydrates

DEVELOPED BY PhD EQUINE NUTRITIONISTS

Exclusively from Purina[®]

OUTLAST[®]
GASTRIC SUPPORT TECHNOLOGY

OUTLAST[®] gastric support technology is proven to act quickly. With a proprietary blend of calcium and magnesium sourced from seaweed, its unique structure enhances its capacity to support gastric comfort.

AMPLIFY[®]
HIGH-FAT SUPPLEMENT

Amplify[®] high-fat nugget is an energy-dense fat supplement designed for easy digestion. Made with a blend of rice bran, vegetable oils and flaxseed to support endurance, body condition, healthy skin and a shiny haircoat.

ActivAge[®]
PREBIOTIC TECHNOLOGY

ActivAge[®] technology is a powerful proprietary prebiotic that helps address the signs of aging by supporting immune function, mobility and metabolism in senior horses.

Feeding Directions

Lifestyle	Weight of Horse in Pounds			
	800	1,000	1,200	1,400
Minimum Hay or Equivalent Pasture (lbs/day)*				
	9.50	12.00	14.50	17.00
Ultium® Senior® Horse Feed (lbs/day)**				
Maintenance –				
Average Activity	2.75	3.25	4.00	4.50
Light Work	4.00	5.00	6.00	7.00
Moderate Work	5.50	6.75	8.00	9.50
Heavy Work	7.00	8.50	10.25	11.00***

* This is the recommended minimum amount of hay to be fed. If feeding more hay, you may reduce the feeding rate of Ultium® Senior Horse Formula to maintain appropriate body condition.

** To meet nutrient requirements, do not feed less than 0.3 lbs per 100 lbs of body weight per day for mature horses at maintenance (3 lbs per 1,000-lb horse). If your horse gains too much weight at that minimum feeding rate, transition to a ration balancing feed like Purina® Enrich Plus® ration balancer.

*** Feeding rates of Ultium® Senior Horse Formula and forage may be adjusted or feed may be top-dressed with Purina® Amplify® High-Fat Supplement for additional calories. Hard-working horses may also benefit from supplementation with Purina® SuperSport® Amino Acid Supplement.

A 4 lb meal of Ultium® Senior supplies a full serving of Outlast® gastric support technology.
