Directions:

High Octane® Heavy Weight® supplement is designed to be fed as a supplement to the base feeding program. Mix High Octane® Heavy Weight® supplement into daily feed at the rates below to provide supplemental energy, essential amino acids, to help aid in palatability, and to provide medium-chain triglycerides for skin and hair quality.

High Octane® Heavy Weight® supplement can also be mixed with water at the rate of 8 oz per gallon and poured onto feed to help aid in palatability and add energy to the total daily diet.

CAUTION: Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death.

This product was made in a feed manufacturing facility that does not handle or store products containing animal proteins prohibited in ruminant feed. USE ONLY AS DIRECTED

Recommended Daily Feeding Amount (oz/day)

Show Cattle..... 2-12 oz/day

Cattle can be more sensitive to dietary changes, especially energy. Start slow at 2 oz per day and mix thoroughly along with Honor® Show cattle feed of choice. Initially, cattle may be slow to consume Heavy Weight® supplement, but should be acclimated by day 4 to 5. Increase Heavy Weight® supplement slowly by 1 to 2 oz per day every 4 to 5 days until the desired feeding level has been achieved.

Show Pigs 2-16 oz/day

Begin feeding at 2 oz per day along with Honor® Show pig feed of choice. Increase slowly at 2 oz per day every other day until the desired feeding level has been achieved.

Show Lambs & Goats..... 2-8 oz/day

Begin feeding at 2 oz per day along with Honor® Show feed of choice. To help prevent digestive disturbances, increase slowly by 1 to 2 oz per day every 3 to 4 days until the desired feeding level has been achieved.
