

LAND O LAKES® Mare's Match® Foal Milk Replacer

The nutrition a foal needs to reach its full potential

- ✔ Provides high-quality nutrition to foals when mare's milk is not available

The right nutrition early in your foal's life sets the stage for long-term potential. When a mare can't fill this role, LAND O LAKES® Mare's Match® foal milk replacer takes her place and offers palatable, high-quality nutrition.

LAND O LAKES® Mare's Match® foal milk replacer closely matches mare's milk and, in combination with good management, can help you raise strong, healthy foals.

Available in an 8 lb. pail and 20 lb. pail

LAND O LAKES® Mare's Match® Foal Milk Replacer

Features	Benefits
Essential vitamins and minerals	Provides the nutritional requirements for foal growth
Protein and fat balance	Mimics the balance found in mare's milk to support efficient foal growth
Proper balance of zinc and copper	Supports hoof health
Highly digestible formulation	Meets foals' energy requirements
Product preservation system	Helps product stay fresh while feeding
Resealable pail	Maintains freshness during storage

Feeding considerations:

- Begin feeding after colostrum and feed for at least 8 weeks. Follow the mixing and feeding directions found on the back of the pail.
- Always provide fresh, clean water.
- For optimal results, offer high-quality creep feed, such as LAND O LAKES® Mare's Match® foal milk transition pellets.
- Always keep LAND O LAKES® Mare's Match® foal milk replacer on-hand in case your foals need high-quality nutritional support.

Let's talk about how to best meet the nutritional needs of your foals.
